ANIMAL REPRODUCTION SCIENCE

Contents of *Animal Reproduction Science* Volume 39

VOL. 39 NO. 1 **JUNE 1995**

The effect of optimal and suboptimal concentrations of sperm on the fertility of fresh and frozen bovine semen and a theoretical model to explain the fertility differences
P. Shannon and R. Vishwanath (Hamilton, New Zealand) 1

Plasma progesterone concentration in relation to ovulation rate and embryo yield in Chios ewes superovulated with PMSG
F. Samartzi (Thessaloniki, Greece), S. Belibasaki, E. Vainas (Ionia, Greece) and C. Boscos (Thessaloniki, Greece) 11

Reproductive response and LH secretion in ewes treated with melatonin implants and induced to ovulate with the ram effect
A.G. Brunet, A.L. Sebastian, R.A. Picazo, B. Cabellos (Madrid, Spain) and S. Goddard (Milton Keynes, UK) 23

A clinical and ultrasonographic study of induced testicular and epididymal lesions in goats and a ram
N. Ahmad and D.E. Noakes (Hatfield, UK) 35

Serum LH, FSH, estradiol-17β and progesterone profiles of native and crossbred goats in a tropical semiarid zone of Venezuela during the estrous cycle
H. Leyva-Ocariz (Barquisimeto, Venezuela), C. Munro and G.H. Stabenfeldt (Davis, CA, USA) . . 49

Short-term inhibition of prolactin secretion by naloxone treatment in the pregnant gilt
B. Szafranska and J.E. Tilton (Fargo, ND, USA) 59

Evaluation of early reproductive performance in the postpartum alpaca by progesterone concentrations
P.W. Bravo (Davis, CA, USA), D. Pezo and V. Alarcon (Cusco, Peru) 71

Announcement 79

VOL. 39 NO. 2 **JULY 1995**

Effects of oxytocin, vasopressin and vasotocin and their agonists on steroid secretion by bovine granulosa cells
A.V. Sirotkin, J. Nitray (Nitra, Slovak Republic), L.W. Tarasenko (Kiev, Ukraine), P. Uhrin, J. Laurinçik and J. Bulla (Nitra, Slovak Republic). 81

Dietary-induced suppression of pre-ovulatory progesterone concentrations in superovulated ewes impairs the subsequent in vivo and in vitro development of their ova
T.G. McEvoy, J.J. Robinson, R.P. Aitken, P.A. Findlay, R.M. Palmer and I.S. Robertson (Aberdeen, UK) 89

Embryo recovery from superovulated mouflons (*Ovis gmelini musimon*) and viability after transfer into domestic sheep
S. Ledda, S. Naitana (Sassari, Italy), P. Loi, M. Dattena, M. Gallus, A. Branca and P. Cappai (Olmedo, Italy) 109

Immunization of goats against recombinant human inhibin α-subunit: Effects on inhibin binding, mating behaviour, ovarian activity and embryo yield
E. Dietrich, M. Hennies, W. Holtz (Göttingen, Germany) and J.K. Voglmayr (Memphis, TN, USA). 119
Use of deslorelin short-term implants to induce ovulation in cycling mares during three consecutive estrous cycles
E.L. Mumford, E.L. Squires (Fort Collins, CO, USA), E. Jöchle (Denville, NJ, USA), L.A. Harrison, T.M. Nett (Fort Collins, CO, USA) and T.E. Trigg (Dee Why, N.S.W., Australia) 129
Effects of slight agitation on the quality of refrigerated boar sperm
J.E. Rodríguez-Gil and T. Rigau (Bellaterra, Spain) 141
Examination of ovulation rate, uterine and fetal interactions, and reproductive age in Chinese Meishan, Yorkshire, and reciprocal cross gilts: effects of fetal and maternal genotypes
B.R. White and M.B. Wheeler (Urbana, IL, USA) 147
The importance of thyroid hormone in experimental ovarian cyst formation in gilts
R. Fitko, J. Kucharski and B. Szlezyngier (Olsztyn, Poland) 159

Erratum 169

VOL. 39 NO. 3 **AUGUST 1995**
Reproductive performance of heifers induced to oestrous asynchrony by suprabasal plasma progesterone levels
M. Duchens, M. Forsberg (Uppsala, Sweden), H. Gustafsson (Eskilstuna, Sweden), L.-E. Edqvist and H. Rodríguez-Martínez (Uppsala, Sweden) 171
Buserelin overcomes the effect of the corpus luteum on ovarian follicular development in postpartum cycling cows
H. Twagiramungu, L.A. Guilbault (Laval, Québec, Canada), J.G. Proulx, R. Ramkumar (Kapuskasing, Ont., Canada) and J.J. Dufour (Laval, Québec, Canada) 183
Ovarian follicular wave emergence after treatment with progestogen and estradiol in cattle
G.A. Bo, G.P. Adams (Saskatoon, Sask., Canada), M. Caccia (Córdoba, Argentina), M. Martinez, R.A. Pierson and R.J. Mapletoft (Saskatoon, Sask., Canada) 193
GnRH induces ovulation of a dominant follicle in primiparous dairy cows undergoing anovulatory follicle turnover
S. McDougall (Hamilton, New Zealand), N.B. Williamson (Palmerston North, New Zealand) and K.L. Macmillan (Hamilton, New Zealand) 205
Superovulatory response of Chios sheep to PMSG during spring and autumn
F. Samartzi, C. Boscos (Thessaloniki, Greece), E. Vainas (Ionia, Greece) and P. Tsakalof (Thessaloniki, Greece) 215
Ovulation frequency among sows group-housed during late lactation
F. Hultén, A.-M. Dalin, N. Lundeheim and S. Einarsson (Uppsala, Sweden) 223

Announcement 235

VOL. 39 NO. 4 **SEPTEMBER 1995**
Follicle-stimulating hormone stimulated differentiation and progesterone production of bovine granulosa cells in culture
M. Kuran, P.J. Broadbent and J.S.M. Hutchinson (Aberdeen, UK) 237
Female to female stimulation of ovarian activity in the ewe
L. Zarco, E.F. Rodríguez, M.R.B. Angulo and J. Valencia (Mexico, Mexico) 251
Photoperiodic control of the time of parturition in alpacas (*Lama pacos*)
T.W. Knight, A.F. Death and T.K. Wyeth (Bulls, New Zealand) 259
Synchronization of oestrus in gilts with altrenogest: effects on ovulation rate and foetal survival
F. Martinat-Botté (Nouzilly, France), F. Bariteau, Y. Forgerit (Rouillé, France), C. Macar, P. Poirier (Romainville Cédex, France) and M. Terqui (Nouzilly, France) 267
An interaction between feeding rate and season affects fertility of sows
R.J. Love (Camden, N.S.W., Australia), C. Klupiec (Sydney, N.S.W., Australia), E.J. Thornton (Corowa, N.S.W., Australia) and G. Evans (Sydney, N.S.W., Australia) 275

The recovery of preantral follicles from ovaries of domestic cats and their characterisation before and after culture
K. Jewgenow and F. Göritz (Berlin, Germany) 285

Book reviews
Controlling reproduction 299
Molecular biology of the female reproductive system. 300

Announcement 303
